

## A Picture is Worth 1000 Characters!

Sometimes, Marketing Remarks aren't enough to showcase all of the gems your listing has to offer to your peers in CincyMLS.net and consumers through Client Portals.

Did you know that you can use up to 1,000 characters to describe each of the photos on your listings in CincyMLS?

Go to Revise Your Listings, then choose Upload / Manage Pictures. Select the photo and click Edit. Bring your photos to life with great descriptions to highlight special features.
