

# New Member Portal Migration

Last week, CincyMLS migrated to the new Single Sign-On (SSO) Member Portal. Activation emails were sent on November 22. Over 5,000 subscribers have successfully activated their new member portal.

A common issue has been that browsers are not updated to the latest version. To check the version of your browser, go to <https://www.whatismybrowser.com>. If your browser is not up to date, click Guides at the top of the webpage then "How to update your browser" for instructions.

If you have not activated your account, you will receive a new invitation this week. Follow the instructions in the email to change your password. You will need your cell phone to receive a verification code to complete your activation.

When you log in to a personal device, click Trust this Device to eliminate the need to verify your identity each time. If you clear your cache, switch your device or log out, you may need to verify again.

Innovation distinguishes between a leader and a follower.
