

Get the Most Out of Your Open House with RPR

Open houses are one of the most effective ways to get prospective buyers through a property. With the RPR app, you can get all the information buyers want and need by running reports.

School Reports: If your buyers are parents, a good school district is usually on the top of the priority list; these reports include school population, testing outcomes, ratings, and more.

Market Activity: These reports will help prospective buyers see how the market moves in the area including status changes, price changes, and distressed properties.

Mini Property Report: These give just enough information to prospective buyers - price, comps, taxes, neighborhood information, and more.
Mini Property Flyer: A smaller customizable version of the property report with the most basic facts.
