

ARE YOU USING THE MOST UPDATED FORMS?

The MLS recently deactivated the MLSDocs email previously used to receive required listing documentation. All listing documentation must now be uploaded directly to the listing. Several of our forms have been updated to reflect this change. Please check our Forms page to ensure you are using the most recent versions.

To find the forms, go to CincyMLS.net. Click on Compliance & Forms in the menu bar, select MLS Forms, then Listing Forms.

Upload/attach the completed signed document to the listing in Rapattoni.

Note: CincyMLS encourages the use of the Delayed Entry Seller Authorization and the Withdrawal forms, but they are not required to be uploaded.
