

RAPATTONI MLS 11 SNEAK PEEK

In October, 2024, Rapattoni will introduce its new MLS 11 View & Act Interface crafted to optimize the listing search and review process. The enhanced View & Act workflow has been redesigned to consolidate all essential controls for reviewing and acting on listings.

The new grid view will have customizable columns and action buttons at the top and to the right of the results keeping all of the tools you need within reach.

This listing detail will be found by clicking the listing number or changing the display and can be emailed or printed directly from the page.

Training will be available prior to launch! Be sure to take advantage of training opportunities to learn the most efficient way to utilize the new interface.

Stay tuned for more details!
