

# RAPATTONI MLS 11 FAVORITES SECTION

Accessing your favorite MLS 11 features is now even easier. The MLS 11 actions pane has been enhanced with a new **Favorites** section, allowing users to group their most frequently used actions right at the top of the pane.

From the right action panel, select the star at the top and add the available actions wanted to organize your favorites. Use the arrow next to your favorites to rearrange the order.

Save your selections and they will appear at the top of the right action panel for quick accessibility and saving time.
