

RPR MOBILE™ INTRODUCES AI-POWERED PROPERTY SUMMARIES

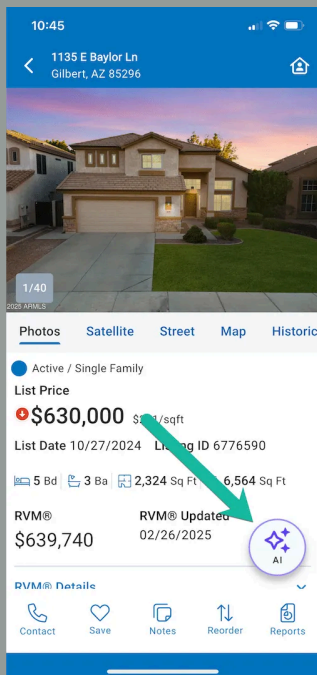

You're in the field. A client asks about a listing. You need to summarize the details quickly—without scrolling through endless data or scrambling for the right words.

RPR Mobile™ has added AI Property Insights, a new tool that instantly generates clear, data-backed property summaries for residential and commercial properties. No more data overload. No more second-guessing. Just instant insights that make you the expert in the moment.

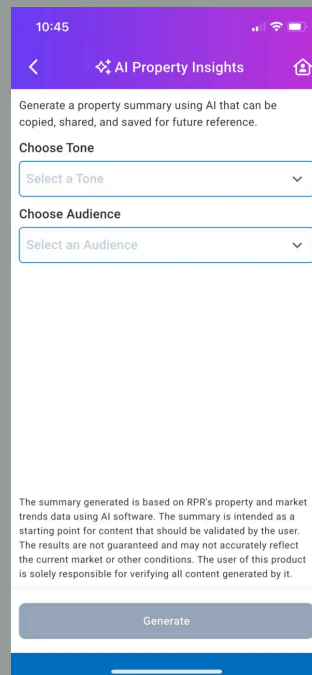

First, update your RPR Mobile™ App. AI Property Insights is now live, but you need the latest version of RPR Mobile™ to access it. Head to the App Store or Google Play, update your app, and experience it today!

HOW IT WORKS

Open RPR Mobile™ and select any on-market property.

Tap AI. Choose a tone and audience for messaging.

Refine and share. Get an instant data-backed summary.
