

SENTRILOCK ACCESS BY APPOINTMENT (ABA)

VISIT ONLY BY APPOINTMENT

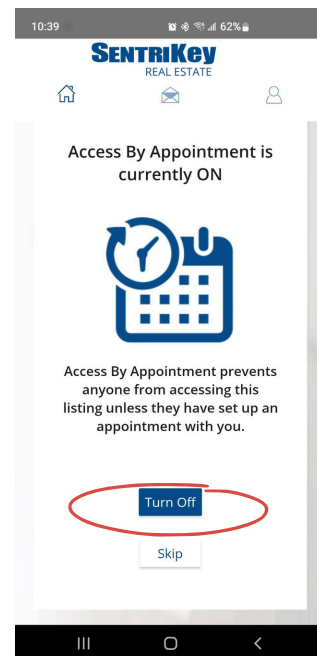

How to Prevent Unauthorized Access

With more sellers and their families working and learning from home, secure, controlled access to listings is essential. How can you ensure the right person enters a property - on the right day, at the right time?

Access By Appointment (ABA) gives you full control over who can enter a listing and when. When enabled, ABA ensures that no one can access the keybox unless they have a confirmed, scheduled showing - helping protect your clients' time, privacy, and peace of mind.

Once the keybox is assigned to the listing:

- Open the **SentriKey** app.
- From the menu (three horizontal bars at the top left), select **My Lockboxes**.
- Choose **Property Access Settings**.
- Tap **Select Property** then choose the correct property.
- Follow the on-screen prompts until you reach the **Access By Appointment** screen.
- Tap **Turn On** to enable ABA.

Access By Appointment (ABA) helps streamline showings by ensuring that only confirmed appointments can access the property during the scheduled time. ABA gives agents and sellers more control, helping to reduce disruptions and keep everything running smoothly.
